Holiday Assignment

Dear Students and Parents,

Summer vacations are a time to relax, refresh, and reconnect with the joys of learning beyond the classroom. They provide children with the opportunity to explore their creativity, discover new interests, and spend valuable time with their families.

Keeping this spirit in mind, the Holiday Homework has been thoughtfully designed to blend learning with fun. The activities aim to encourage imagination, observation, communication skills, and hands-on experiences in an enjoyable and stress-free manner.

We request parents to support and guide their children while allowing them to complete the work independently and creatively. Let this holiday be filled with happy memories, meaningful learning, and joyful moments together.

Wishing you all a safe, happy, and productive summer vacation!

Instructions:

- Students must complete only the activity assigned to their respective roll number group. Kindly check your roll number carefully before starting the assignment.
- All work should be done neatly and creatively on the prescribed sheets/files with proper headings, presentation, and decoration wherever required.
- Students are encouraged to complete the assignments independently and submit them on time while maintaining cleanliness and originality in their work.

Ms Reeta Sain is a dietician. When she was asked to speak at a district school to raise awareness, she wanted to instill healthy eating habits in the kids. She made a secret code for the main nutrient of amla fruit. The code is:

“Amla lights up your energy and pizza makes your energy off.”

[Hint: Compare this with the on(1) and off(0) state of the computer. So Amla = 1 and Burger = 0. Now form a binary number and convert it into decimal form. Then decode the decimal value with the given table.]

Amla	Burger	Amla	Amla	Burger
Burger	Amla	Burger	Burger	Amla
Amla	Burger	Amla	Burger	Burger
Burger	Burger	Burger	Burger	Amla
Burger	Amla	Amla	Burger	Amla
Burger	Amla	Burger	Burger	Amla
Burger	Amla	Amla	Amla	Burger
Burger	Burger	Burger	Amla	Amla

Now, decode the above code to identify the nutrient available in apple using the table given below:

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26
